Charging your speaker

Before using your speaker, it is recommended to fully charge the device to ensure optimal performance.

The speaker can be fully charged in around 3.5 hours from empty.

Note: please press and hold the **POWER** button to turn off the speaker while the speaker is not in use for saving power.

Pairing the speaker with your Bluetooth Device

1. Turn on the speaker, the Blue LED flashes quickly (pairing mode).
2. Turn on the Bluetooth function of your device (smartphone or Notebook) and search for Bluetooth devices. Please refer to the manual of your device about how to enable your Bluetooth function.
3. Select “the model name of your speaker” and select **CONFIRM** to pair with the speaker. After the speaker is successfully paired, the Blue LED is steady on.

Note: The password is “0000”, if your device requires a password.
